Steps for Patient Registration via QR Code Using ABHA App

1. Download the **ABHA App** from the Play Store (Android) or App Store (ios)

2. Create ABHA Id, in case your ABHA ID is not made

3. Open the **ABHA App** on your mobile phone.

4. Select the **"Scan QR Code"** option at the bottom in the app.

5. Scan the **Hospital ABDM QR Code** displayed here and click on **"Get Token."**

6. Provide digital consent to share your health details with the hospital by clicking **"I Agree."**

7. After providing consent, you will receive a **Token Number**.

8. Note this **Token Number** and provide it to the **Billing Executive at the hospital billing counter reserved for website registrations**.

9. The registration staff will complete the **OPD/IPD registration**, after which you can proceed for consultation.
